
TCA Financial Planners

your partners in financial planning

Accredited by | **AMP** 

TCA Financial Planners Pty Ltd, Tony Case (Tony Case (FP) Pty Ltd), Ben Watts (Ben Watts (FP) Pty Ltd), Steve Brooke (Stephen Brooke (FP) Pty Ltd), and Jaxon King (Jaxon King (FP) Pty Ltd) are Authorised Representatives and Credit Representatives of AMP Financial Planning Pty Limited, Australian Financial Services Licensee and Australian Credit Licensee, and all trade as TCA Financial Planners.

Introducing TCA Financial Planners

Tony Case

TONY CASE can trace his financial planning foundations back to 1975 when he began his career after migrating from the UK in 1974. He is the founder and practice principal of **TCA Financial Planners Pty Ltd (TCA)**. Financial Planning, as it is known today, is an advice driven process that is primarily client focused and designed to make simple some very complex and often confusing concepts that many Australians tend to avoid dealing with. It is also a highly regulated industry. In Tony's view, everyone needs a financial planner at some stage - someone they can work with and trust, someone who understands their goals, aspirations and financial planning needs. Making the complex simple, and affordable, is a valuable skill that is not as common as it should be, even among planners. However it is something Tony and his team believe passionately in providing their clients with.

Tony has seen great change in the past 40 years as financial planning has evolved into what it is today. His practice has been associated with AMP since 1987. In February 2001 a major heart attack stopped him in his tracks for an extended period of time. This event is covered in detail in our brochure "**Chronicle of a Heart Attack**", where Tony tells his story and extols the incredible benefits of being adequately insured. In early 2005 Tony and Kate moved from Tamworth to Brisbane to make a fresh start after several challenging years of recovery, and in 2006 TCA purchased their Cleveland House office premises.

TCA is a successful financial planning practice by any standards, populated with a high content of very satisfied clients, as evidenced by the fact that around half of all new business we do comes from people referred to us by existing clients or referral partners. We are also a high performing practice recognised as sitting well inside the top 10% of AMPFP practices nationally. This enviable position could not be maintained consistently over many years without the able partnership of our planners and our excellent office support staff.

Ben Watts

Ben Watts joined **TCA** as a Financial Planner in 2010. Ben is Tony's son-in-law and had a remarkable start to his career, being awarded the **AMP New Planner of the Year Award** for QLD in 2012 - a well deserved honour in our view. He has an easy going manner, and is a professional and passionate advocate for his clients.

With business succession in mind, Ben purchased part of Tony's practice in 2014, and plans are in place for him to eventually take over as practice principal once Tony decides to slow down a little after 40 years.

TCA's business footprint expanded in 2013, bringing on board firstly Steve Brooke, who is based on the Gold Coast, and then Jaxon King, based on Brisbane's Northside. Two new Cleveland based planners will be joining the practice in early 2017, taking our planner numbers to six. Ben is very much involved in such decisions as plans continue to grow the business over time. By joining forces with other quality planners under the TCA banner we extend both our brand and our excellent client service offering. Consolidating back office processes also achieves cost efficiencies that benefit all our clients.

All our planners are licensed and accredited to offer advice as per our FSCG. As the industry gradually moves to higher educational standards we also continue to seek ever higher tertiary qualifications in line with community and industry expectations. Education is only one small part of what makes a good planner. Good people skills, product knowledge, and an ability to listen and come up with sound financial advice isn't something learned anywhere else but on the job, looking after people every day, speaking language they understand and relate to. The TCA environment embeds our own training and support for all our planners in addition to that offered by our licensee or the wider financial planning community. It's what makes us who we are. We don't just strive to be the best, we believe we are pretty close to being there already.

Steve Brooke

Steve Brooke joined TCA in 2013 and works from our Gold Coast office in Helensvale. Steve has been in financial services for over 27 years, initially within the finance and banking sector, operating his own Mortgage Broking business. He upgraded his qualifications in September 2010 and joined AMP as a financial planner in February 2011. He then opened his Gold Coast office, merging with **TCA Financial Planners**, in June 2013.

Steve is an excellent and knowledgeable communicator who enjoys helping his clients to achieve their financial goals. He is also our resident Accredited Mortgage Consultant (AMC) for those clients looking for a new home loan or refinancing.

Jaxon King

Jaxon joined TCA in 2015 and is located on Brisbane's Northside. At that point he had been a financial planner with AMP for 2 years and in the industry for 9 years. He was the youngest ever graduate to complete the MLC Adviser Scholarship program in 2012, where he also completed his Advanced Diploma in Financial Services.

He is passionate about ongoing education and is currently completing a Masters In Finance. As the youngest member of TCA, Jaxon is well placed to help young professionals and families achieve their financial goals.

Referral Partners are an important part of our business advice offering. They are people or firms who refer clients to TCA for financial planning or lending advice, or who we refer our clients to from time to time for their quality expertise. Whether mortgage brokers, accountants or legal firms for Will and estate planning, we value our referral partners and take steps to ensure the highest quality advice and service is always offered when we refer our clients to them. If a financial incentive is offered or received for such referrals, these details are recorded in our Financial Service and Credit Guide (FSCG), which is available from any of our offices or downloadable from our TCA Website.

All TCA Financial Planners identify with our business ethos, ethical standards, business aims and client service processes. They are licensed and qualified to assist clients in determining the best solutions to their financial planning needs, as detailed in our FSCG.

In a challenging financial planning world, we believe the future of financial advice, and therefore TCA, is very bright indeed. We have a great planning team, and a fantastic back office team to support them and our clients. Our commitment has always been that the client comes first and foremost, and this is supported by the extraordinary level of client referrals we receive. We very much appreciate and welcome these client referrals. We believe they stem from the value we add to our client's lives and the excellent service processes we employ.

Why Do You Need A Financial Planner?

Today's financial markets are complex and ever changing. When superannuation, insurance or investment issues arise there are so many choices requiring access to independent research and specialised knowledge about investment strategies and insurance risk that it can be confusing. Without a financial planner you take this risk upon yourself alone.

A financial planner has a legal duty to represent your best interest at all times.

How Will You Benefit?

By working closely with us we can provide you with:

- knowledgeable advice
- a financial plan specifically designed for you
- recommendations on tax effective investments
- strategies to balance investment risk and return
- comprehensive risk insurance advice
- advice on matters specific to your financial situation, objectives and needs
- ongoing portfolio review and management

TCA Financial Planners (TCA) have been providing financial planning advice solutions to our clients for over four decades. If experience is what you are looking for, we certainly have it. We have also been a consistent award winner over this period, something of which we are justifiably proud.

All our planners are qualified and licensed to provide you with quality advice in a wide range of financial areas, whatever your current situation. Please refer to our Website, where you can also find our Financial Services and Credit Guide (FSCG) which further outlines our qualifications and advice accreditations. Whether you need to review your investments, superannuation, retirement situation, insurance or lending needs, we can help you.

TCA has a history of developing excellent working relationships with clients to provide comprehensive or specifically scoped and affordable financial advice based on your individual needs and goals. In this complex and ever changing financial landscape in which we all live, everyone needs a financial planner at some point, and the sooner people make that important connection, the better prepared they will be.

Any advice contained in this document is of a general nature only and does not constitute personal financial advice. In preparing the advice no account was taken of the objectives, financial situation or needs of any particular person. Therefore, before making any decision, readers should consider the appropriateness of any advice with regard to their particular objectives, financial situation and needs.
